

# Acadiana Machine™

## *Your Complete Manufacturing Services Company*

- *COST SAVINGS*
- *SUPERIOR QUALITY*
- *CREATIVE PARTNERSHIP*

**Acadiana Machine** manufactures components to comply with detailed drawings produced by the engineer or by a highly-skilled Acadiana Machine technician.

Our skilled machinists have years of experience delivering tools with tough machining requirements like close tolerances, hard-to-machine materials, and multi-operational parts. Acadiana Machine assures that your crucial components meet your demanding specifications and exceed your expectations.

**Acadiana Machine** specializes in Computer Numerically Controlled (CNC) machining of precision instruments, components, and tools.

Advanced CNC technology greatly increases the efficiency and precision of tool building. Acadiana Machine is equipped with four state-of-the-art CNC machines to deliver precision components and tools of the highest quality — in small quantities or high volume production runs.
